

INDEPENDENCE DAY

Get up ! -
You gotta move along...

Rubber hit the road - on the fourth of July
Too much time, had passed me by...
To get back - with that bullshit scene
Shake your head boy, where have you been? ...
On Independence Day?

They'd shelved everything - that I held dear
So I fired that engine, loud and clear...
I feel the wheel - propellin' me
To freedom's arms, and my destiny...
Oh, yeah!

Independence Day -
It was said and done...
Independence Day -
My freedom won...
Independence Day -
I raced the Sun...
Independence Day -
Hey, I broke away...
Independence Day -

Thinkin' back - on a dream one night
Revelations, shed some light...
On long lost friends - and sights unseen
I shook my head y'all, where the hell had I been?
On Independence Day?

That night - I rode the Great Divide
Removin', all the veils that hide
My highway's - stars and stripes that shone
Feelin' like I was, I was the chosen one...
Oh, son of a gun!

Independence Day -
It was said and done...
Independence Day -

My freedom won...
Independence Day -
I raced the Sun...
Independence Day -
Hey, I broke away...
Let's get outta here! -

You gotta make or break...
Independence Day -
You got to take the change...
When it looks you in the face!
Independence Day -
You gotta know it when you see it...Oh...
Independence Day -
Independence Day -
Independence Day!
